Currently completing a work-study placement in data science, I am fully operational to turn data into strategic growth drivers and to lead complex machine learning and predictive analytics projects.

PROFESSIONAL EXPERIENCE

Generative AI Data Scientist 10/2025 – 09/2026
URSSAF Caisse Nationale, Montreuil, France

- Development of internal chatbots.
- Analysis of large-scale datasets and user verbatim (NLP).
- Implementation of predictive models for decision support.

Machine Learning Engineer 03/2024 – 08/2024
ATTIJARIWAFA BANK, Casablanca

- Extracted data from PDF and text files and processed embedded images.
- Developed an augmented RAG system to manage client inquiries (B2B).
- Fine-tuned the Mistral model and compared results with the RAG approach.
- Implemented two interfaces: one for chatbot use and another for KPI-based supervision.
- **Technologies:** Mistral AI, Langchain, Python, Pytorch, Streamlit, NLP, Chromadb, MongoDB, Tesseract.

Data Science Assistant 08/2023 – 09/2023
MLView Consulting, Tangier, Morocco

- Conducted exploratory data analysis for marketing campaigns.
- Trained deep learning models for client targeting in future campaigns.
- Fine-tuned the LLM Llama2 for personalised content generation.
- **Technologies:** Python, Langchain, Llama2, NLP, Tensorflow, Scikit-learn, SQL.

RESEARCH PROJECTS

- **Categorical Generative Neural Networks (10/2025 – 12/2025) :** Synthetic data generation for model training using a semi-supervised Categorical GAN (CatGAN), achieving 97% reliability.
- **Recommendation System (10/2024 – 05/2025) :** Implementation based on generative AI and graph-based methods (LightGNN, matrix factorisation, ensemble models, XGBoost).
- **Predictive Supply System :** Developed a predictive stock replenishment system for supermarkets: 91% accuracy.

TECHNICAL SKILLS

- **Computing :** Machine Learning, Deep Learning, RLHF.
- **Web Development & Dataviz :** Java, RShiny, Streamlit, FastAPI, PowerBI, Tableau.
- **Data Analysis :** Excel (Pivot Tables), Python, Statistics, R, BigQuery, SQL, NoSQL.
- **Web Scraping :** Selenium, Scrapy, BeautifulSoup, Google search.

EDUCATION

Master in Machine Learning for Data Science 09/2024 – 08/2026
Université Paris Cité, Paris, France

- Reinforcement learning and Graph learning, Factorisation & recommendation, Clustering and dimensionality reduction, NLP, Data representation and visualisation, Time series, Mixture Models, Vertex AI GCP.

Engineer in Intelligent Systems 10/2019 – 07/2024
Faculty of Science and Technology, Tangier, Morocco

- Machine Learning, Deep Learning, AI methodology, Computer Vision, Data Mining, Inferential Statistics, BI.

CROSS-DISCIPLINARY SKILLS

Soft Skills: Collaborative work, Adaptability, Analytical and creative thinking.
Languages: French (Native), English (Professional C1).
